L = 3.0 m: geometry permits passage (0.10 m clearance) — R0 deadlocks, R1 passes at crawl (social force)
(a) vehicle speed — R0 deadlocks after 68 s stopped; R1 crawls at 1.0 m/s
v [m/s]
time [s]
R0: fixed 0.30 m margin
R1: speed-dependent margin
(b) vehicle position
x [m]
time [s]
R0: fixed 0.30 m margin
R1: speed-dependent margin
(c) P1 lateral position (both reach the curb)
y [m]
time [s]
R0: fixed 0.30 m margin
R1: speed-dependent margin
(d) one-factor ablation at L = 3.0 m
vehicle delay [s]
deadlock
deadlock
R0
(base)
A1
car only
A2
ped only
R1
(both)
